## **ISU Anti-Doping Education and Certification Program “Clean Skater”**

“CLEAN SKATER” is an online interactive education program based on the education requirements of the World Anti-Doping Code. It will give skaters and their support personnel knowledge about key topics on Anti-Doping and give further motivation to pursue clean sport.

By completing the 9 modules of the program, the users will learn about Anti-Doping regulations including doping control procedures, the WADA prohibited list, whereabouts, therapeutic use exemption, as well as see the consequences of doping.

The program is available in six languages including English, French, German, Spanish, Russian and Chinese.

Upon successful completion of the modules the user will be registered as certified.

Although the “CLEAN SKATER” program will start off as optional, in the future it will become compulsory for all skaters who enter an ISU Event. Therefore we encourage each skater to obtain their Anti-Doping certificate as soon as possible.

“CLEAN SKATER” is available on the front page of the ISU website (<http://www.isu.org> - on the right side of the page) and under “Clean Sport/Medical”.

The ISU Anti-Doping Education and Certification Program will be promoted through social media networks and at Team Leaders’ Meetings.

Should you have any questions about the Certification Program please do not hesitate to contact the ISU Anti-Doping Administrator, Ms Christine Cardis ([cardis@isu.ch](mailto:cardis@isu.ch)).

Please contact ISA antidoping officer Cherry Lau if you have any questions regarding other aspects of medications or testing.
